natural areas conference virtual exhibit booths

Upload your logo and enter keywords

This is what attendees will see when they enter the virtual tradeshow. Exhibitors can manage their own logo, description, video, collateral, staff profiles and more. A searchable keyword index helps attendees find the exhibitors and sponsors who are relevant to them.

Build your customized booth

Your exhibit page is an easy-to-create webpage that can be as simple or as elaborate as you'd like it to be. You can also upload documents and video, set appointments and interact with attendees during dedicated exhibit hours.
