

Dr. Constance Hausman

Plant and Restoration Ecologist at Cleveland Metroparks

As the Plant and Restoration Ecologist, Dr. Hausman develops and implements ecosystem assessment, natural recovery and habitat restoration projects related to plant communities throughout Cleveland Metroparks. Her current work focuses on understanding changes that occur in our natural areas due to forest pests/pathogens, climate change, habitat destruction, and invasive species in order to rehabilitate our native forests through restoration and management. She is also the Executive Director of the Ohio Biological Survey.
