

Natural Areas Association Seeks to Build Exceptional Board of Directors

The Natural Areas Association (NAA) Board of Directors is actively seeking experienced, dedicated leaders with diverse perspectives to join its Board of Directors in guiding the organization as it grows and providing assistance to its Executive Director and other staff. NAA needs your help if:

- You are passionate about natural areas preservation and management
- You have a dedicated and consistent leadership ethic and would be excited about being part of a hard-working, respectful and diverse team
- You want to help further the association's mission to support the community of natural areas professionals

Not ready to become a Board member? NAA is also currently looking for volunteers to serve on its many committees that help deliver the programs and services that support natural areas.

Board and committee members must be members in good standing of NAA, commit to attending regular remote meetings via conference call or video conference, attend one in-person meeting per year, and demonstrate their support of NAA through an annual donation that is above and beyond annual membership dues donation (at an amount of their own choosing). Board and committee members need not exclusively be natural areas professionals; any individual with a passion for natural areas is invited to apply.

Board members serve 3-year terms, and new board members will begin their terms at the NAA Annual Membership Meeting in October 2021, or may be appointed to the Board sooner in order to fill current vacancies.

To apply, please submit a completed application form and a resume or CV. Applications can be completed using this [online application](#):

Applications are due no later than May 15.
